

OmniLedger has announced the award of a new contract to supply their Pyramid Housing Management system to Action Housing & Support, who are based in Rotherham.

Action Housing & Support (formerly Action Housing Association) was established in 1977. Originally working in Sheffield and Rotherham alone, the organisation has since expanded, working from the East Riding of Yorkshire to Staffordshire and covering everywhere in between. With over 170 staff and nine district offices, Action Housing has supported a total of around 3,000 service users.

Support work is directed at helping those at risk of insecure housing and homelessness to retain secure and decent accommodation. Service users may have mental health issues, be victims of domestic abuse, have substance misuse problems, or have problems with offending behaviour.

**Steve Hawley, Property Services Manager of Action Housing & Support**, added. *"We approached a number of companies to tender for the business and narrowed these down to three and they were invited to present their products to our management team. Following this, we compared several features and functions of the various systems to each of the others. The choice was the Pyramid system from OmniLedger because of the;*
