IT'S THE VERY LATEST

Why Presbyterian Housing Association chose Omniledger

PHA was the first organisation in Northern Ireland to purchase the Pyramid system and when asked why, John Tinman, Chief Executive, commented that the PHA had previously been working with separate software systems for Rents, Finance, and Maintenance and Housing and clearly needed a fully integrated management software system.

“We looked at the market and invited five providers to give presentations to all our management and head office staff. The system that we all agreed seemed to provide what we were looking for, and also had a user-friendly interface, was the OmniLedger Pyramid package.

We were particularly impressed at the receptiveness of Lee and Gary from OmniLedger to deal with potential problems and to their willingness, where possible, to tailor the program to meet our particular requirements. So far so good.... we have already commenced staff training and will see full implementation within the next few weeks.

There can be no doubt that the OmniLedger system certainly represents a fully integrated approach and this can bring huge advantages to housing associations in Northern Ireland.”

John Tinman
Chief Executive, Presbyterian Housing Association Ltd.
