IT'S THE VERY LATEST

**OmniLedger** are pleased to announce the award of a new contract to supply their fully integrated Pyramid Housing Management system to **Depaul Trust**.

Depaul Trust is the largest national youth homeless charity in the UK helping young people around the UK who are homeless, vulnerable and disadvantaged.

Depaul Trust are passionate about what they do, working in the very heart of local communities. Depaul protect young people who become homeless by finding them a place to call their home and are open every day and night, offering 100,000 beds each year.

Depaul prevent young people from becoming homeless by rebuilding family relationships and provide young people with the chance to fulfil their potential through education, volunteering, training and jobs. In this way, they become part of the community - just like everyone else.

**Linda Clemett, Finance Director of Depaul Trust, said** "We have been looking to improve our management of rent collection and the accounting for rental income for some time, so a small group from both our housing and finance teams looked at a variety of systems to determine which one would be most appropriate for our needs. The group unanimously chose OmniLedger as a system that would not only meet our needs but exceeded them, as well as being robust enough to cope with the planned growth of our services".

**Lee Wagnall, Sales Manager at OmniLedger, added** "We are delighted that Depaul Trust have decided to use Pyramid as their Housing Management System. They are another welcome addition to our client base within the London area".

Year Installed: 2008 / Units: 160 / Previous System Used: Various
