IT'S THE
VERY LATEST

OmniLedger are pleased to announce the award of a new contract to supply their fully integrated Pyramid Housing Management system to **South Ulster Housing Association**.

Since 1978, under a variety of names, South Ulster Housing Association has been endeavouring to provide the very best in social housing to the communities they serve. Whilst South Ulster Housing Association was originally set up to purchase and rehabilitate old terrace houses in particular, the needs of the community have led it to diversify into the provision of bungalows for the elderly/disabled and flats for general family needs. It is also the Association's aim, where possible, to provide new purpose built accommodation for the elderly.

Mark Turner of South Ulster Housing Association said "Our Association has been reviewing its software requirements for the last year and is pleased to announce the decision to choose the Pyramid system from OmniLedger. South Ulster is confident that this system will more than meet its current requirements and will be able to cope as the Association expands. Finally, our staff have been impressed with both the system and the staff when presenting the system".

Lee Wagnall, Sales Manager at OmniLedger, added "I am pleased to welcome South Ulster Housing Association to OmniLedger. They are another welcome addition to our ever growing client base in Northern Ireland".

Year Installed: 2008 / Units: 800 / Previous System Used: Mossbank
