

Lochaber H.A. Ltd

Lochaber H.A. Ltd are based in Fort William and manage around 500 properties.

After the decision to chose Pyramid from OmniLedger was made, the system was installed and live within just six weeks. After there initial training schedule had come to an end, this was the outcome...

“We have been so impressed with the trainer from OmniLedger, the training experience has been so positive for the organisation as a result of the trainers competence, knowledge and manner. Each member of staff who has received training has expressed nothing but extremely positive feedback, and we have all benefited from the trainers knowledge of the system, his skill as a trainer, and above all his patience and humour. I generally cannot praise him enough.”

“The OmniLedger sales team were really helpful, professional and a pleasure to deal with. The quality of their work, their excellent approach towards the organisation as a whole and our staff as individuals, and the ease with which we could communicate with them certainly influenced our decision to purchase the software.”

Isla Gray
Operations Manager
