

## SUFFOLK ESTATE CO-OPERATIVE LTD

OmniLedger's focus on developing working relationships.

Suffolk Estate Co-operative is a Managing Agent for the 300 properties owned by the Local Authority.

In a six year period we have undergone two major reorganisations and increased our numbers of staff. Because of our culture and nature of business, we needed a system that was comprehensive, highly user friendly to our housing & Finance staff, but also have potential to adapt with us.

In addition to their presentations, we were able to appraise OmniLedger during a visit to a locally based Housing Association, who had installed the system a year earlier.

We were able to get grass roots feedback on its performance, and quite also pleased with OmniLedgers focus on developing working relationships. This was one of the decided factors in purchasing the system.

Pyramid has been installed for 3 months now, and it has delivered in areas we expected it to do. We are a growing evolving organisation, and we do envisage OmniLedger growing and evolving with us.

Ian Clark  
**Housing Services Manager**
