

**OmniLedger** has announced the award of a new contract to supply its fully integrated Pyramid application suite, which includes housing management, maintenance and finance modules, to **Wiltshire Rural Housing Association**.

**Wiltshire Rural Housing Association** was set up in 1984 to provide rented homes in the rural areas throughout the county of Wiltshire for local people in housing need. Their aim is to provide village homes for village people in Wiltshire at rents which are as low as economically possible.

WRHA has 204 properties for affordable rent in 34 different villages in Wiltshire. After demonstrations from several major suppliers, OmniLedger was awarded the contract.

**Gill Shell, Director of WRHA**, said: "We chose OmniLedger because we felt that it provided the most integrated and comprehensive system, which will meet the needs of the Association well into the future, it is not only user friendly which was a significant factor but represents good value for money."

**Lee Wagnall, Sales Manager at OmniLedger**, added: Although OmniLedger are now building a client base that includes larger Associations, our core business still remains the small to medium size RSL. In 2006 we have seen a dramatic increase in enquiries from smaller associations who have become dissatisfied with the support they receive from their existing suppliers. These enquiries are now being converted into new clients throughout the UK.
